

ANCIENT GREEK CITY STATES

BUILDING YOUR OWN CITY STATE

Name: _____

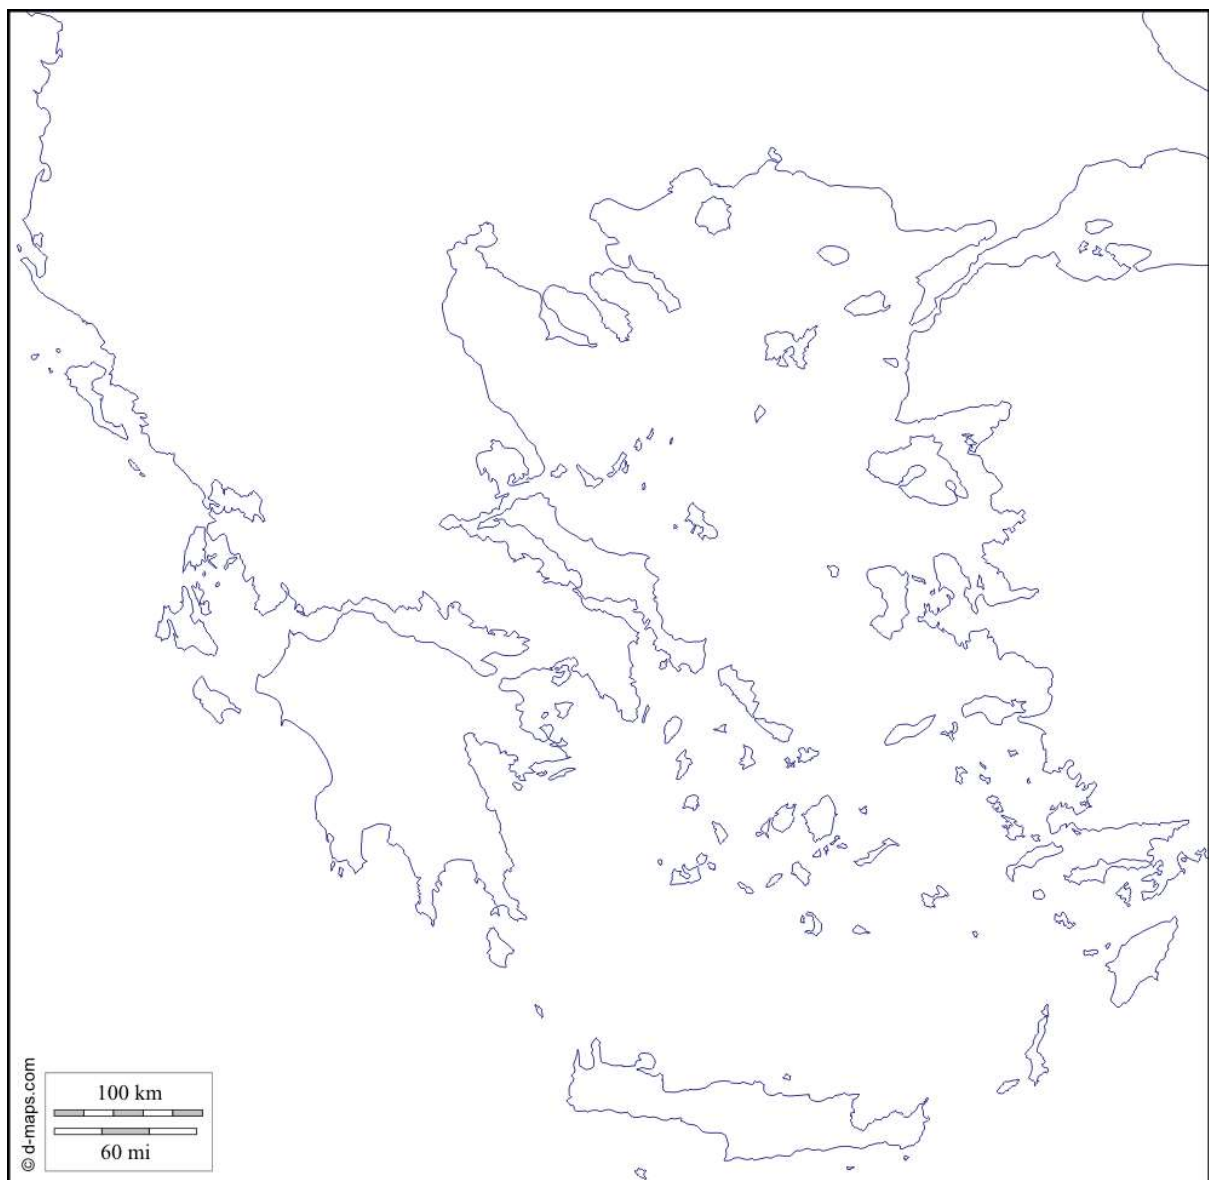

Working with:

1) _____

2) _____

Remember (or look up if you need to) the 5 key Ancient Greek city state names. List them below.

Use an Atlas to look up a place in Greece that you'd like to take control of. Think carefully about where the place is. Will it be easy to defend? Will it be close to food? Can you trade to other places easily? Identify your new city state on the map of Greece below:

Why did you choose this place to settle?

What are the disadvantages of settling in this place? Think about where the other big cities are. Think about how easy it would be to attack. Think about how much space you've got.

Look up the different buildings that Ancient Greek City states had. List them below:

Think about which buildings you'll include in your city. Why have you included these?

City states are run in lots of different ways. Can you remember any of the ways city states were run? Choose one and write about it below:

Think about how you will run your city state. Who will be in charge? Will there be lots of people running the city? Will there be one person making all of the decisions? Will you allow slavery? Write about your decision below. Remember to explain **why** you've chosen to run your city state in the way you have.

City states were very religious. Can you name any of the Greek gods and what they were the god of?

You'll need to pick one of the Ancient Greek gods to dedicate your city to. Draw a picture of this god below.

Why did you choose to dedicate your city to this god? What are you hoping that you'll be able to get from the god? Why will this god help your vision for the city?
